

Project Demo Planning

Date	15 July 2026
Team ID	SWTID-2026-8469
Project Name	Credit card Approval Prediction
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Introduce the project, problem statement, objectives, and overall workflow.	2	Kodakandla Venkata Seshu Akshay
2	Dataset & Model Development	Explain the dataset, preprocessing, feature engineering, Random Forest model, and evaluation metrics.	4	Kalavakollu Kishore
3	Application Demonstration	Demonstrate the Flask application by entering applicant details and showing approval/rejection predictions.	5	Kodakandla Venkata Seshu Akshay
4	Project Architecture	Explain the system architecture, DFD, technology stack, folder structure, and application flow.	3	Jammula Sri Manikanta
5	Results & Performance	Present model accuracy, confusion matrix, ROC-AUC score, feature importance, and testing results.	3	Kodakandla Venkata Seshu Akshay
6	Conclusion & Q&A	Summarize the project, discuss future enhancements, and answer questions from the evaluators.	3	All Team Members

Flow Summary: Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce the project, explain the need for automating credit card approval, objectives, and expected benefits.
2	Solution Overview	Explain the dataset, preprocessing, Random Forest model, Flask application architecture, and overall workflow.
3	Live Feature Demonstration	Demonstrate the application by entering applicant details and showing the prediction result (Approved/Rejected), along with key features.
4	Q&A Session	Answer questions related to the model, evaluation metrics, implementation, deployment, and future enhancements.
